

## **FlexSpec Multi-Topic Custom Assessments**

FlexSpec Assessments allow you to easily create customized assessments choosing the from over 160 different technology topics below and assigning the desired percentage and difficulty level of each topic for you unique job. All delivered in a single session for your candidates.

## **ReviewNet Programmer Aptitude Test**

The ReviewNet Programmer Aptitude Test (PAT) is designed to help employers hire entry level programmers, and measures a candidate's abilities to learn and apply the skills necessary to be a successful programmer. The PAT has been used to evaluate over 15,000 entry level candidates and has been predictively validated by licensed industrial psychologists. The PAT includes sections covering logic, problem solving, math, sequences and patterns, and a major section on pseudocode to measure basic programming aptitude without requiring knowledge of a specific programming language.

## **Technical Skill Assessments**

### **Business Intelligence & Reporting Tools**

Ab Initio ETL Development

BI - Cognos

BI - TIBCO Spotfire

Business Intelligence Developer - MS Platform

Business Objects Enterprise XI r2/r3

Cognos 8.x Developer

Crystal Reports Designer

Informatica Consultant

Informatica PowerCenter 8.1.1

Microstrategy

Oracle Business Intelligence (OBIEE)

Qlikview

SAP BusinessObjects 4.x BI Platform

SAS 9

SAS System Fundamentals

SQL Server Analysis Server 2008 Developer

SQL Server Analysis Services (SSAS)

SQL Server Integration Services 2008 Developer

### **Business Applications & Help Desk**

Business Analyst

Business English Literacy

Excel 2010 for Analysts

Excel and VBA for Financial Analysts

Excel VBA

ITIL Foundation Concepts and Practices

Microsoft Access 2002 Power User

Microsoft Office 2000 Help Desk

## Retired Technical Skills Assessments

The following technical skills assessments have been retired from our Standard Catalog. If your company requires access to any retired QSets, you can contact one of our Customer Support Specialists at [customercare@reviewnet.net](mailto:customercare@reviewnet.net) to see about having it made available to your company.

Clarify: ClearBasic	SAP General Consultant
Clarify: ClearCallCenter	SAP Human Resources
Clarify: ClearSales	SAP Materials Management Consultant Basic
Clarify: ClearSupport	SAP Project Systems
Microsoft Windows 2000 Help Desk Core	SAP R/3 3.1: Product Data Mgmt Advanced
Microsoft Windows 2000 Help Desk QuickTest	SAP R/3 3.1: Product Data Mgmt Fundamentals
PeopleSoft Benefits	SAP R/3 Basis Administration 4.x
PeopleSoft Payroll	SAP Sales and Distribution
PeopleSoft PeopleCode	Sybase Server 11 DBA
PeopleSoft PeopleTools Consultant Basic	Sybase Server 11 Developer
PeopleSoft SQR/PS Query Basic	Unix System Administrator (2000)
SAP 4.5 ABAP Developer Experienced	Visual Basic 5.0 Developer Senior B
SAP 4.5 ABAP Developer Fundamentals	Visual FoxPro 7.x Developer
SAP FI/CO Configuration Analysts	

## **The FirstView Assessment**

The FirstView Assessment is a cognitive, "Big 5" personality screening test designed to screen applicants for job suitability in just 15 minutes.

FirstView is easily administered and allows you to select from 15 primary job-type reports to quickly get a basic picture of an applicant's likely suitability for a position. The report narrative describes potential behavior in a job relevant context. Behavioral interviewing questions are provided for probing areas of concern.

FirstView uses the most advanced psychometric methodology, with sophisticated item construction within a proven construct of measurement. FirstView matches the accuracy of the finest 5th Generation instruments, yet requires only 15 minutes to complete. This is critical if you are using an assessment to screen large candidate group positions that can include: Sales, Management, Healthcare, Telemarketing, Customer Service, Information Technology, Administrative and more.

### **FirstView Measures:**

- Rules-consistency, ability to deal with change, need for structure, ability to follow rules and policies
- Extroversion-need to work with others, communication of enthusiasm, ability to talk or listen.
- Assertiveness-decision making, selling and closing abilities, ability to handle confrontation, willingness to take direction from others.
- Teaming-teamwork, collaboration with others, competitiveness.
- Sensitivity-emotional stability, handling of criticism and feedback, dealing with stress.
- Organization-planning, spontaneity, time management attitudes, ability to handle details.
- Social Desirability-an internal validity scale to determine if the candidate is being frank with their answers
- Cognitive Ability-an overall aggregate measure of cognitive skills

## **The Prevue Assessment**

Prevue is a highly valid and reliable assessment and benchmarking system for selecting new employees, coaching current employees, and planning for retention and succession.

The Prevue Assessment is designed to help you make better hiring decisions by using information on personality, interests, abilities, and working characteristics. The Prevue Assessment identifies key traits where a job candidate may not align with the job-then provides behavioral interviewing questions to probe deeper into the candidate's experience-to determine job fit suitability. Prevue provides an objective comparison of the candidate with a psychometrically sound standard of high performance.

The Prevue Assessment system is a powerful and precise method for measuring and matching work-related characteristics of people to the requirements of a position Job Match. It is a highly accurate, valid, and reliable psychometric tool used for a wide variety of human resource applications, including predicting the suitability of candidates for specific jobs, aiding the team-building process, and detailing specific information on employees' training and coaching needs. As a result, most human resource decisions made with the assistance of the Prevue system provide dramatic and immediate returns to the client organization.
